Comprehensive Exploration of Organisational Development (OD)

PIK726-0426 MLS-KL-1

**If you can't train them,
you can't blame them!**

Short Description:

COURSE OVERVIEW The training program is structured to offer participants a comprehensive exploration of the field of organisational development (OD). It focuses on imparting advanced skills and knowledge essential for effectively leading and facilitating organisational change. By delving into the foundational concepts of OD, the program aims to enhance participants' understanding and capabilities, preparing them for more complex challenges in the realm of organisational transformation. Moreover, the curriculum is designed to elevate participants to a higher level of expertise in driving organisational change initiatives. It emphasises practical applications and strategic approaches that are critical for navigating the intricacies of OD. Through this program, participants will not only gain theoretical insights but also develop the necessary competencies to implement impactful changes within their organisations, ultimately fostering a culture of continuous improvement and adaptation.

Course Overview:

COURSE OBJECTIVES

At the end of this program, the participants will be able to:

- Gain a comprehensive understanding of the principles, theories, and models of organisational development.
- Develop advanced skills in diagnosing organisational issues and designing interventions.
- Learn effective techniques for managing resistance to change and fostering employee engagement.
- Acquire tools and strategies for facilitating large-scale organisational change initiatives.
- Explore the role of leadership in driving organisational development and change.
- Enhance communication and interpersonal skills essential for successful OD practice.
- Understand the ethical considerations and challenges in organisational development.
