## **Contractual Liabilities Management**

PIK776-0825 UK-LDN-1

**If you can't train them,  
you can't blame them!**

### Short Description:

**COURSE OVERVIEW** This training program equips professionals with the critical knowledge and skills necessary for identifying, managing, and mitigating liabilities associated with contractual agreements. Participants will learn to recognise potential risks within contracts, allowing them to take proactive measures to address these vulnerabilities. By understanding the nuances of contractual language and obligations, professionals can better navigate the complexities of legal agreements, ensuring compliance and minimizing the likelihood of disputes. Moreover, the program empowers professionals to effectively manage contractual risks, thereby safeguarding their organisations from potential legal and financial repercussions. Through comprehensive training, participants will develop strategies to analyse and evaluate contract terms, leading to more informed decision-making. By enhancing their ability to foresee and mitigate risks, they can protect their organisations' interests, ensuring long-term stability and success in their contractual engagements.

### Course Overview:

#### **PROGRAM OBJECTIVES**

At the end of this program, participants will be able to:

- Understand the principles of contractual liability.
- Identify potential liabilities in contracts.
- Assess the impact of identified liabilities on contract performance.
- Develop strategies to manage contractual risks effectively.
- Mitigate risks associated with contractual agreements.
- Gain proficiency in drafting liability terms in contracts.
- Enhance skills in negotiating liability clauses and resolving related disputes.

#### **TARGET AUDIENCE**

- Contract Managers.
