Training's Role in Strategic Transformation

PIK-0127 SNGP-2

**If you can't train them,
you can't blame them!**

Short Description:

Organisations today operate in an environment characterised by rapid technological advancements, evolving customers' expectations, regulatory changes and increasing competitive pressures. To remain relevant and achieve sustainable success, organisations must continuously transform their strategies, structures, processes, technologies and cultures. However, research consistently shows that success of transformation initiatives depends less on the technical aspects of change and more on the organisation's ability to prepare, engage and support its people throughout the transition. This intensive training program provides participants with a comprehensive understanding of organisational change management principles, methodologies and best practices. The program explores how leaders, managers, HR professionals, learning and development specialists and project teams can effectively plan, implement and sustain organisational transformation while minimising resistance and maximising employee engagement. Participants will learn how to align change initiatives with strategic objectives, manage stakeholder expectations and build a culture that embraces continuous improvement and innovation.

Course Overview:

COURSE OBJECTIVES

By the end of this training program, participants will be able to:

- Under the principles, theories and frameworks of organisational change management.
- Analyse drivers of strategic transformation and their implications for organisational performance.
- Assess organisational readiness and identify barriers to successful change implementation.
- Design stakeholder engagement and communication strategies that build commitment and reduce resistance.
- Develop training and learning strategies that support organisational transformation initiatives.
- Measure the effectiveness of change and learning interventions using relevant performance indicators.
- Create sustainable change plans that reinforce new behaviours, processes and organisational culture.

TARGET AUDIENCE:

This training program is designed for:

- Organisational Development (OD) Professionals.
- Human Resources Managers and Specialists.
- Learning and Development (L&D) Professionals.
- Change Management Practitioners and Consultants.
- Project Managers and Transformation Leaders.
- Department Managers and Team Leaders responsible for implementing change.
- Executives and Senior Leaders involved in Strategic Transformation Initiatives.
